

CONTROL 2019

Hall 8, Stand 8102

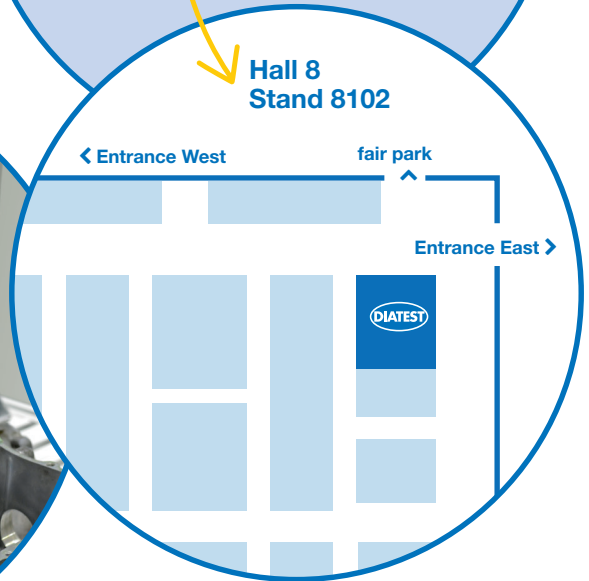

Automation, digitalization, data handling and increasing demands on quality management systems determine the pace of the industry. At the same time, as an entrepreneur you have to keep an eye on the total cost of ownership. How can a manufacturing company guarantee the high quality of its products while keeping costs as low as possible in order to meet or even exceed customer expectations?

We present metrological solutions and approaches for an efficient production. You will see other highlights, such as autonomous in-process measuring at our booth.

Register online for free and visit us at CONTROL show in Halle 8, Nr. 8102
